We're thrilled to announce the relaunch of art exhibitions at our restaurant, beginning with Dynamic Realms of Color by Jasmijn Engel. This vibrant collection reflects her journey through the emotional spectrum, significantly influencing her artistic practice over the past year.

Jasmijn's work explores themes of discovery, resilience, and sensitivity. Her dynamic pieces, with flowing forms and rounded shapes, symbolize the movement and transformation of emotions and energies.

We invite you to experience this unique exhibition and immerse yourself in the vibrant world of Dynamic Realms of Color at H/earth!
